

Keep calm, get a grip!

Patent Pending

Thank you for choosing the GP-Grip specifically designed for Jeep Wrangler that has padded 3" roll bar. Our unique bandana-shaped handle base and solid-built aluminum handle are sophisticated detailed corresponding to the Jeep design elements. They will become one of your highlight pieces on your loved Jeep. With a quick installation, you will soon experience a solid and sturdy grip for all your rides on/ off road, or simply getting in/ out of the Jeep.

Solid metal construction, no more swinging back-and-forth. With the flip-away handle you can enjoy a full window view and never bump your head when getting in and out or checking your tire placement. *Cushioned handle wraps offer another layer of snug and comfy grip.*Quick-accessible outer pocket for your life saving emergency tools or more. Use the inner secret pockets for your emergency money, cards or keys or a forgotten surprise for yourself later on.

GP-Grip Instructions

video is on wranglergrip.com/faq

- Step 1** Place the GP-Grip arrow-end towards the back, center it on top of the roll bar
- Step 2** Wrap the straps through the handle, and guide the straps through the back loops of the outer pouch (PRO only), and press the Velcro area on the top.
- Step 3** Now **flip the handle flat** and then pull to tighten the straps. After the adjustment, firmly press the Velcro area
- NOTE** **Flip the handle flat and tighten the strap** periodically to tight-fit the folded grab handle. These handles are built with outdoor-grade materials. Wipe clean occasionally for a long-lasting use.

GP-Back-Grip Instructions

video is on wranglergrip.com/faq

- Step 1** Make sure the extended end under the top ring is between the headrest bar and the metal handle to avoid metal scratching
- Step 2** Plug the headrest bar through the holes
